Aranya - Forest Kala - Art Anjali - Offering

Aranya Kalanjali is a Luxurious and Sustainable Residential Community aimed at providing dwellers with a green retreat in the heart of the city. Intending to create a harmonious and calming atmosphere reminiscent of a tranquil forest setting, we've used natural materials and sustainable features.

A sense of community and belonging is another key aspect of the project concept. The club house and communal spaces in the building are designed to foster social interaction and shared living. Forest-inspired artwork and natural elements throughout the building serve as conversation starters and points of connection for residents.

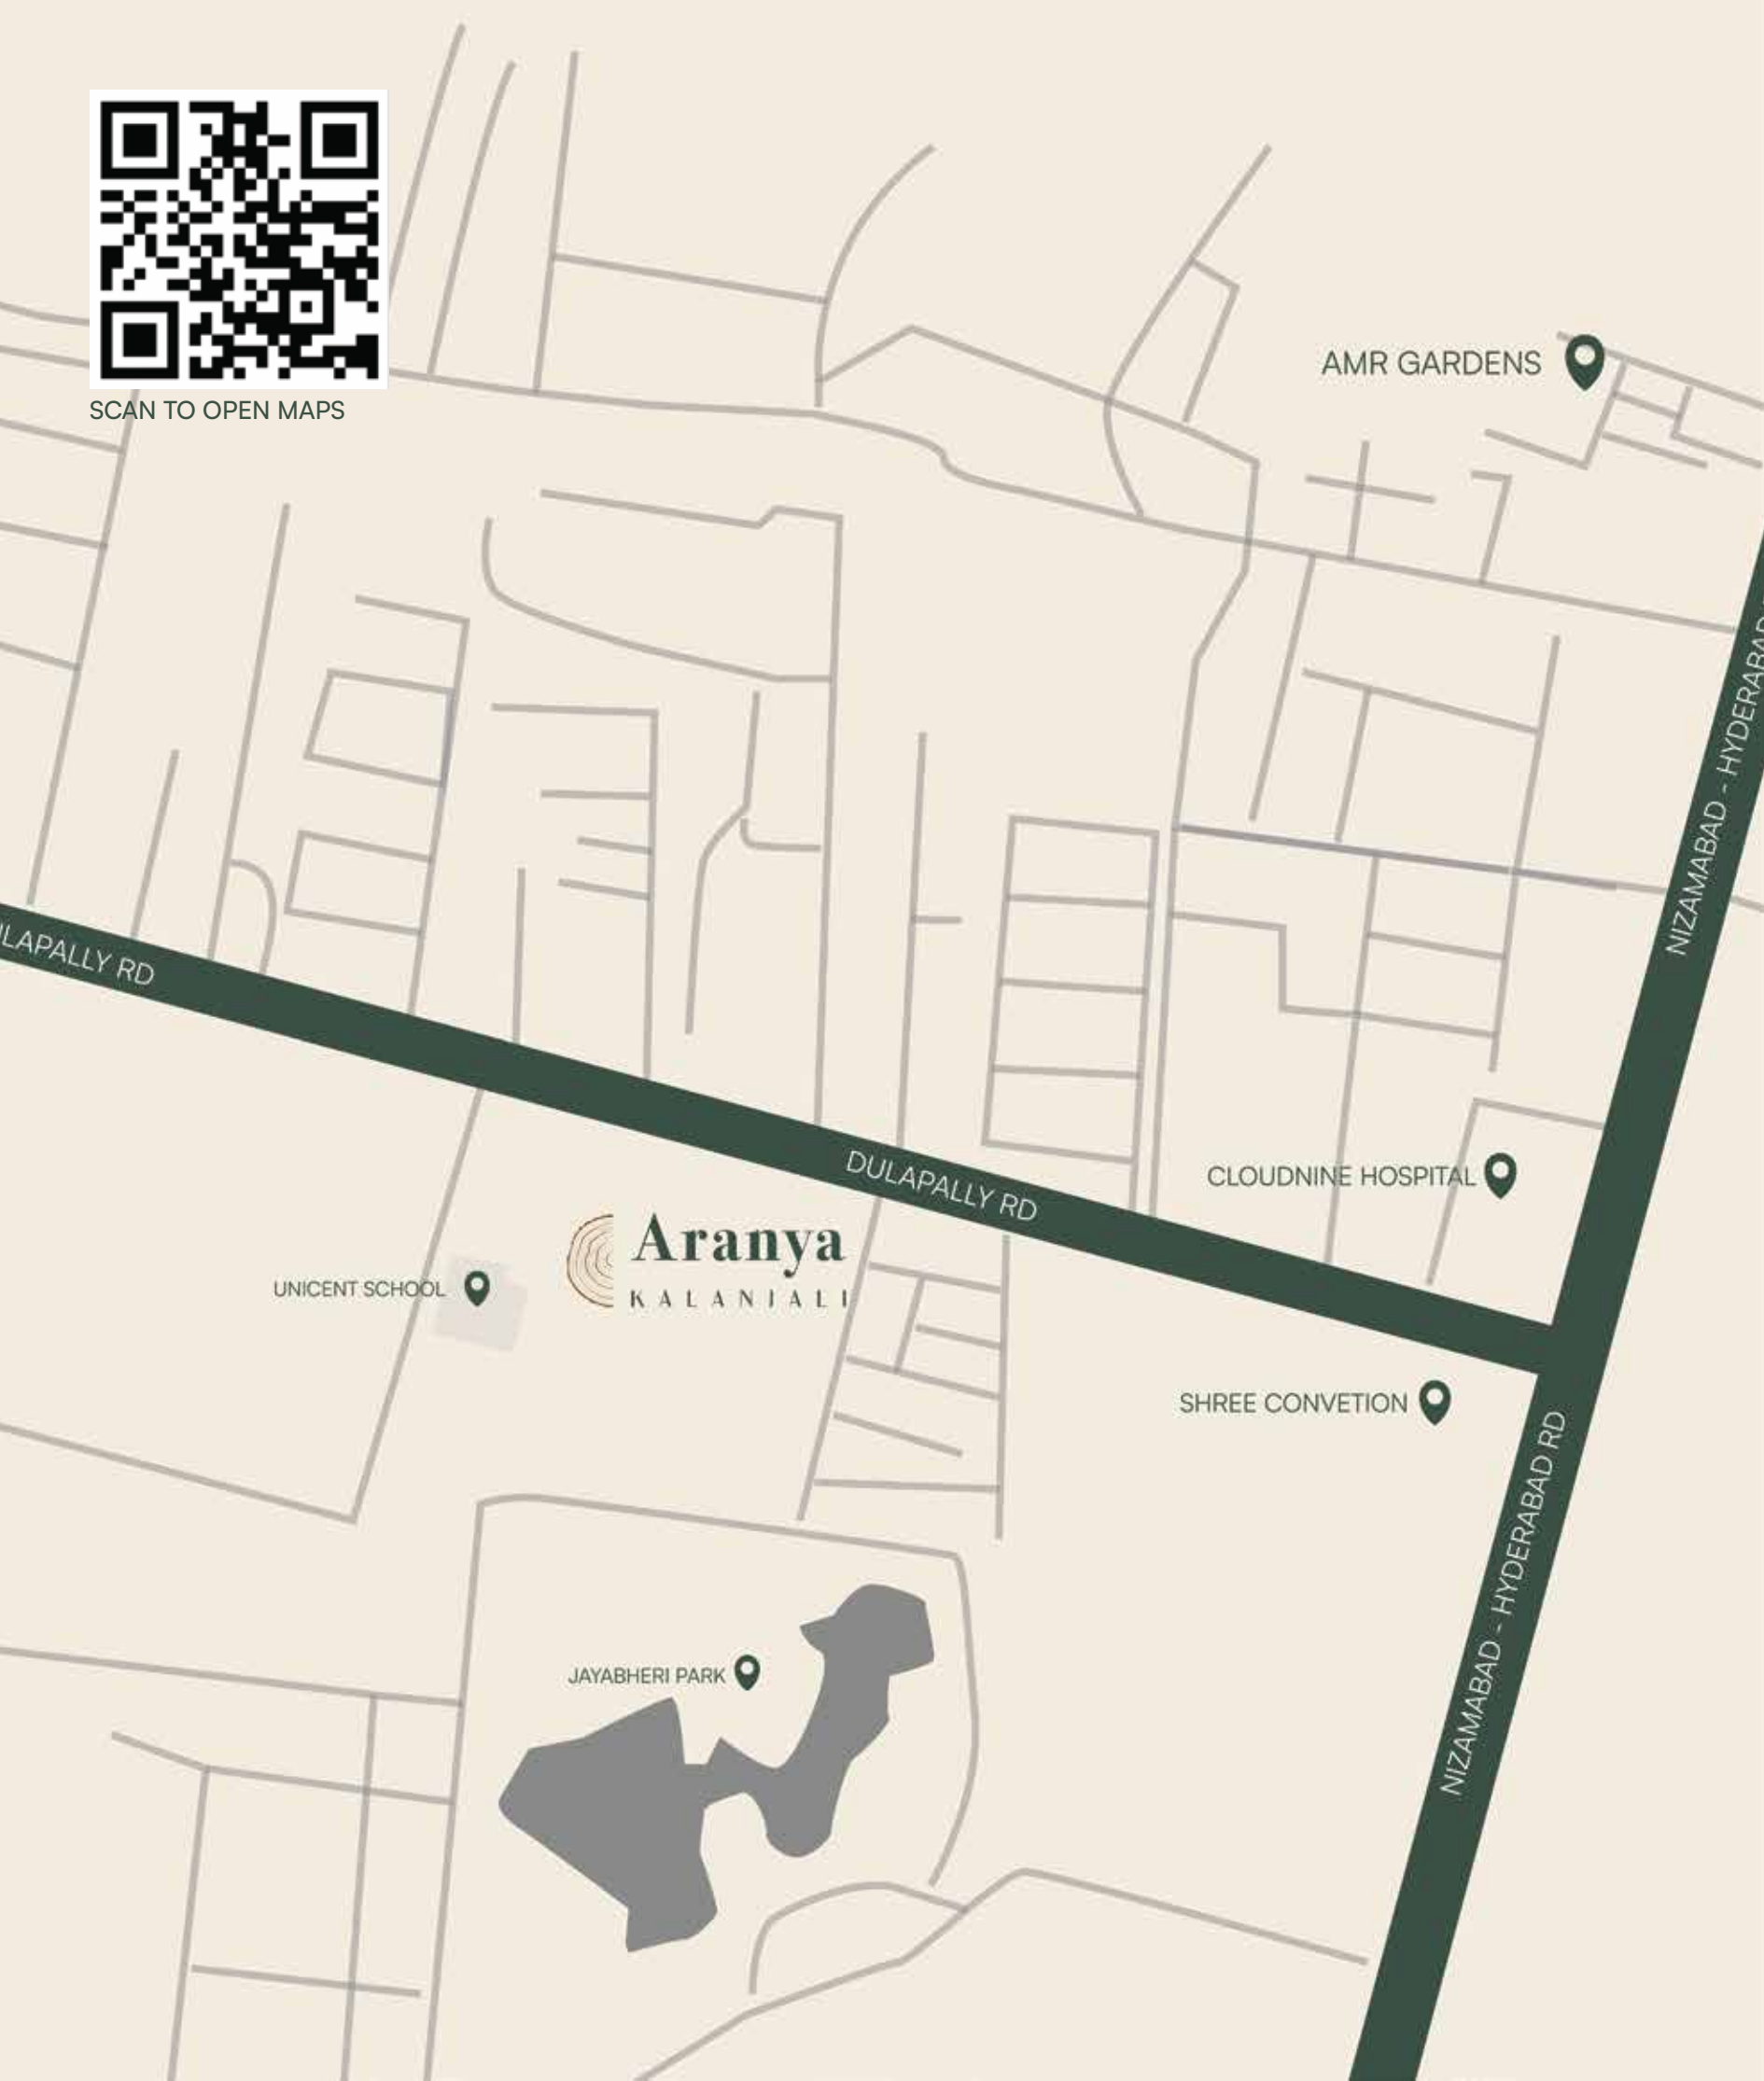

The foundation of our company is Customer Centric Design. Years of experience in the field have enabled our directors to successfully execute a large number of commercial and residential projects. Our team of Architects, Engineers, Project Managers and Skilled Labourers work together efficiently to deliver High Quality products in a timely manner.

Our passion for bringing together sustainability and spaces is not limited to materials and construction methodology, we ensure our projects are sustainable on the pockets of our customers as well. Keeping in mind these values and adding a holistic living experience, we bring you, 'Aranya Kalanjali'.

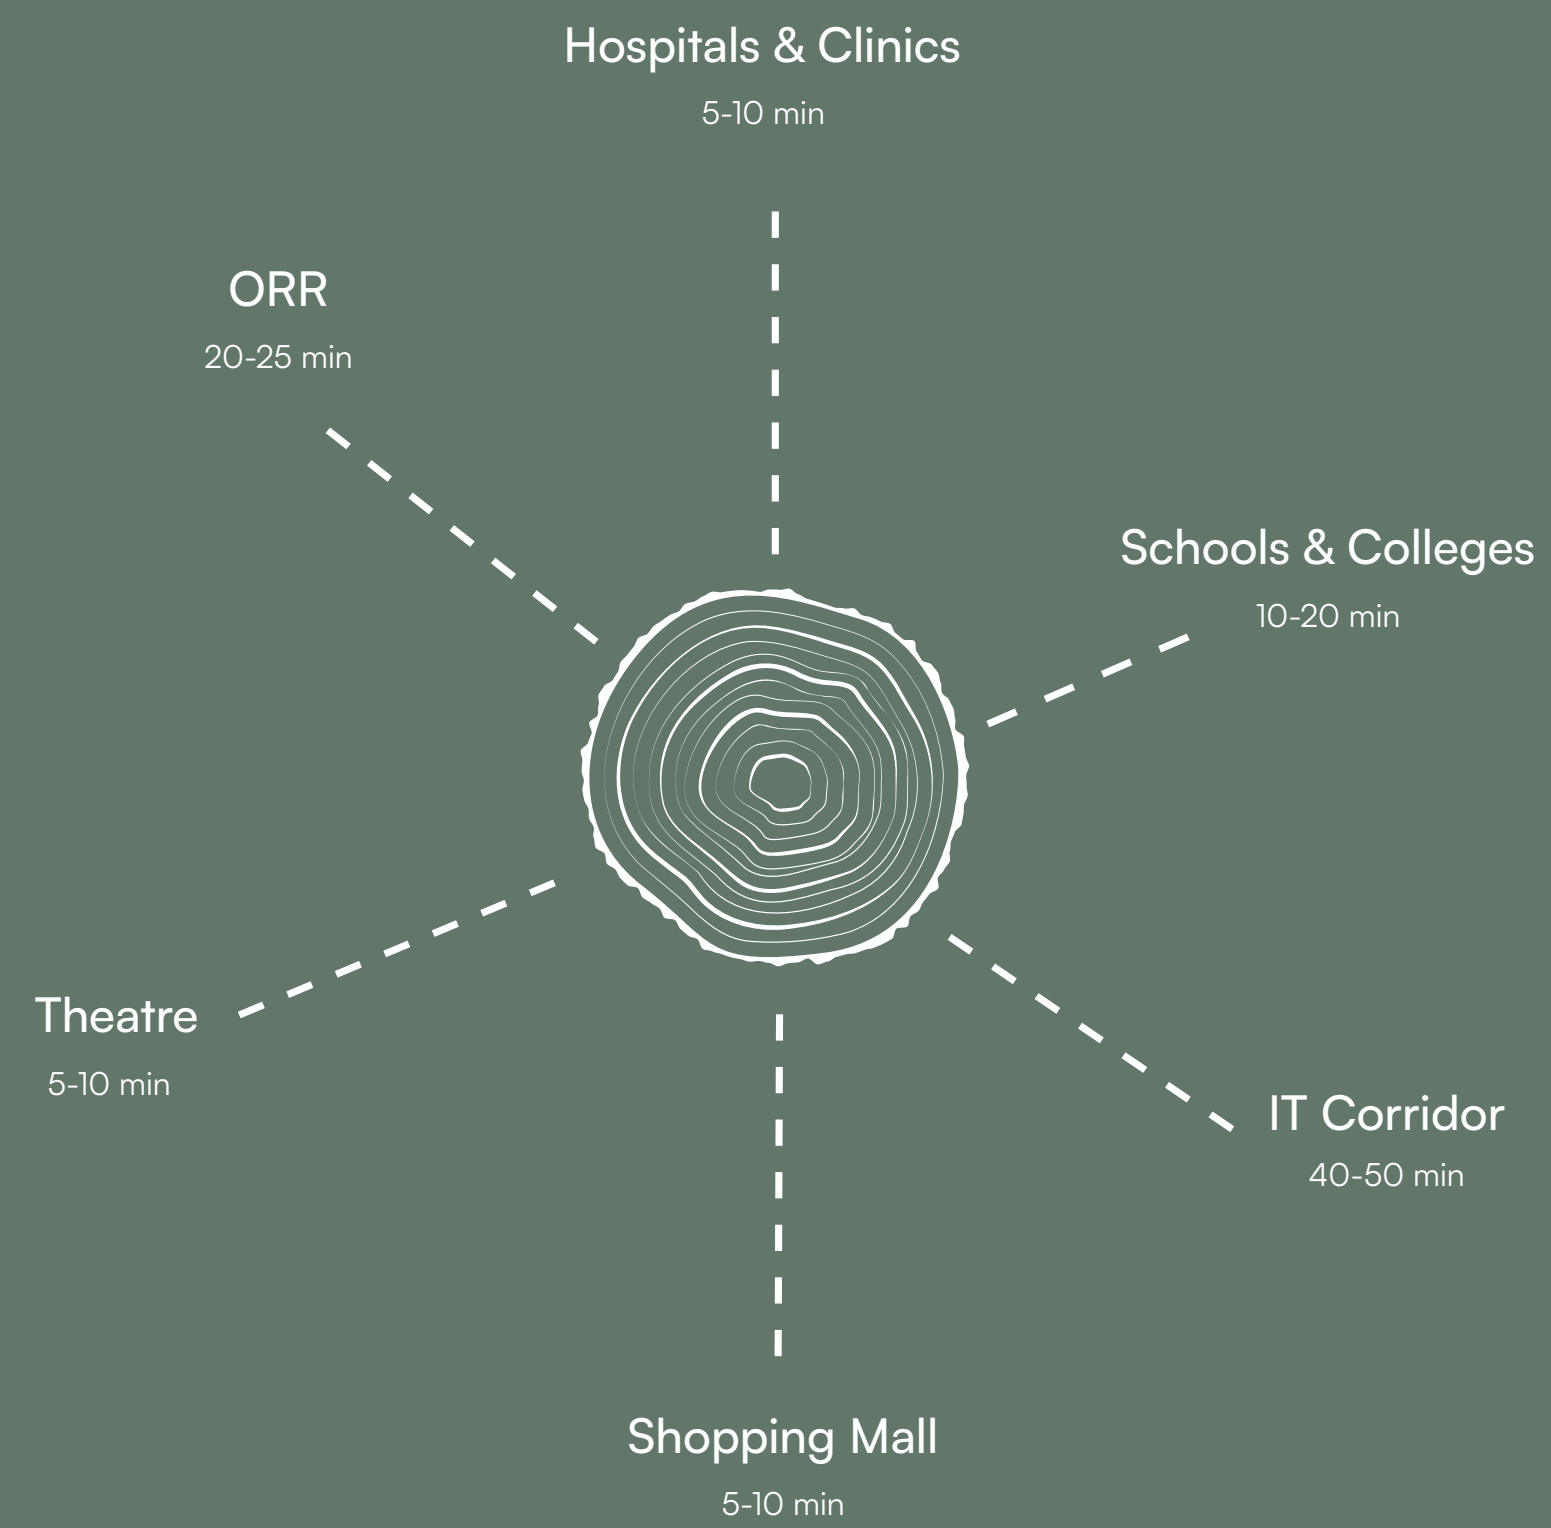

SCAN TO OPEN MAPS

With its suburban setting, the area offers a relaxed and comfortable living experience away from the hustle and bustle of the city. But don't let the peaceful surroundings fool you essential services, schools, colleges and several recreational centers are located just a few blocks away, making it easy to get what you need quickly and without having to travel too far.
